

Knitting for All: "Purlin' with Penni"

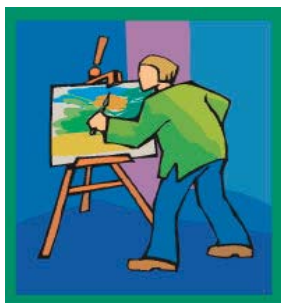

Instructor: Penni MacDonald

Fit to knit? Looking to learn, practice & perfect your skills, or finish a project? Keep your mind and hands active. Please bring to the first class a pair of size 5 needles and some leftover worsted (4 ply) yarn. Students will need to purchase a simple pattern after the first class. Come and share the joy and satisfaction that knitting can bring.

Online Digital Photo Albums: Introduction

Instructor: Sherri Skillman

Do you have loads of digital photos stored in your computer? Do you want to organize them, or better yet, create an online photo album using state-of-the-art software? Then come take a class and learn how to manage and easily organize all of your digital photos, and also how to "click and drag" your photos into online templates in order to create beautiful digital photo albums. Once you up-load the templates, then you simply order the album online and it gets mailed right to your home! These albums are so quick and easy to make, especially for family reunions, weddings and other family events when you want to order multiple copies. You set up the templates once, and then order as many copies as you desire. It's time to move into the 21st century and to learn the latest technology for making archival memory books!

Sketching for Everyone: Art Spring Training

NEW!

Instructor: Jane Staffier

Get a sketchbook and join a spring training class for artists! Exercise your creative powers and sharpen your ability to draw in time to make the most of the upcoming good weather. Learn to capture what you see by adding depth, dimension, detail and color to your work. Quick rendering and observation will be practiced as we work with botanicals, pets/people, landscape/architecture, and using the drawing secrets of the Great Masters to bring you closer to your art goals. A sketchbook/journal will chart your progress and lead you through your creative journey.

Online Digital Photo Albums: Advanced

NEW!

Instructor: Sherri Skillman

If you have started making digital photos albums, and would like to jump up to the next level, then you might want to consider an advanced class! The beginner class uses "fixed" templates, and this advanced class will show you how to make digital albums using "customized" templates. What this means is that you can move your photos around on a page; use all different types of headings, paper backgrounds and embellishments. It's just as easy as the type of album that you made in the beginner class, but with more options! Once you take the advanced digital album-making class, you will be hooked on these beautiful albums!

Permaculture Garden & Design

Instructor: Ellen Zientara

Permaculture is a design for creating sustainable human environments. It offers solutions to the problems facing the world by using ecology as the basis of design by intergrating systems of food, housing, technology, and community development. In this 3-hour class, we will look at the principles and concepts of Permaculture Designs, no dig, weed free gardening, companion planting, sheet mulching, composting & Zone Design starting from the house out. This is a hands-on class, please wear gardening clothes, and gloves. Bring water & a snack. Meeting place information will be sent out prior to start of class.
